All data in EUR as of 31/05/2018 unless otherwise stated.

# Performance Commentary

Recent geopolitical turmoil led to increased volatility and EM equities underperformed global equities given the continued USD strength. Fundamentals in EM remain strong, however, with a few noticeable exceptions like Turkey and Argentina. After strength in April when activist Elliott marked his entrance, Hyundai reverted down when no further news came about potential shareholder friendly measures. Banrisul was also weak on the back of disappointing results and full-year guidance. Continued uncertainty in Turkey put further pressure on the lira and the banking sector, including Sabanci. Borr Drilling and Tullow Oil were strong on the back of continued oil price strength. After weakness YTD, State Bank of India gained on signs that the balance sheet clean-up has been completed. Samsung SDI continued up with management signaling improved results ahead. We initiated a position in Chinese A-listed Robam after a share price fall of around 35% over 3 months. Robam is a premium kitchen appliances manufacturer. Strong underlying market growth as well as market share gains, combined with a cheap valuation should be a recipe for a successful journey. With selective buying in other Chinese holdings, China now represents 16% of the portfolio (from 10% at the beginning of 2018). We see around 40% upside to the current portfolio, which trades at around 8x 19e P/E (25% discount to EM) and 1.1x P/B.

## Historical performance (net of fees)

| Period        | SKAGEN Kon-Tiki A | Benchmark index |
|---------------|-------------------|-----------------|
| Last month    | -1.1%             | -0.3%           |
| Year to date  | -1.5%             | 0.3%            |
| Last year     | 3.4%              | 9.9%            |
| Last 3 years  | 2.1%              | 4.0%            |
| Last 5 years  | 4.4%              | 6.8%            |
| Last 10 years | 5.2%              | 4.6%            |
| Since start   | 12.8%             | 8.1%            |

The fund selects low-priced, high-quality companies, mainly in emerging economies.

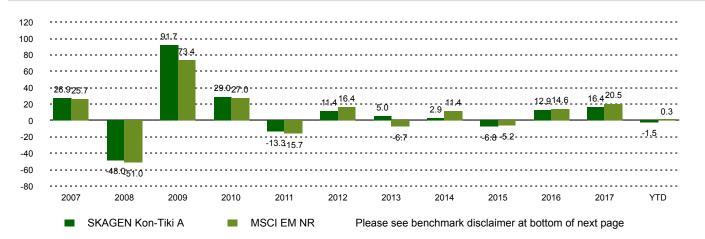

The objective is to provide the best possible risk adjusted return

The fund is suitable for those with at least a five year investment horizon.

#### Important information

This report is intended for investment professionals only. The content is not to be viewed by or used with retail investors. Unless otherwise stated, performance data relates to class A units and is net of fees. Except otherwise stated, the source of all information is SKAGEN AS. Historical returns are no guarantee for future returns. Future returns will depend, inter alia, on market developments, the fund manager's skills, the fund's risk profile and subscription and management fees. The return may become negative as a result of negative price developments. You can download more information including subscription/redemption forms, full prospectus, Key Investor Information Documents (KIID), General Commercial Terms, Annual Reports and Monthly Reports from our local websites or our local representatives. Statements reflect the portfolio managers' viewpoint at a given time, and this viewpoint may be changed without notice. This report should not be perceived as an offer or recommendation to buy or sell financial instruments. SKAGEN AS does not assume responsibility for direct or indirect loss or expenses incurred through use or understanding of this report. Employees of SKAGEN AS may be owners of securities issued by companies that are either referred to in this report or are part of a fund's portfolio.

The benchmark index is the MSCI EM Index (net total return), this index did not exist at the inception of the fund and consequently the benchmark index prior to 1/1/2004 was the MSCI World AC Index. This is not reflected in the table/graph above which shows the MSCI EM Index since the funds inception.
